

# Member Modeller developments being delivered this year

CLARITY  
USABILITY  
EDUCATION

Focused on transparency, usability and education — helping market participants understand scenarios, capital movements and diversification benefits.

## THE MARKET MESSAGE

**Clearer modelling choices.  
Stronger evidence of the  
Lloyd's diversification  
benefit.**

The programme gives members, agents, brokers, investors and managing agents improved functions, adapted view to interpret outputs and manage capital positions.

Delivery lens: flexibility + transparency + support

### 01

#### Scenario flexibility

- Model multiple participation sets for what-if testing
- Persist Members' Agent access year-to-year
- Export dummy-member scenarios into future years

### 02

#### Reporting transparency

- Redesigned member ECA reports with pre-diversification ECA splits
- Clearer view of pre- to post-diversification movements
- Volatility explanations, cleaner screens and guidance

### 03

#### Visibility & support

- Managing Agents see other participating syndicates
- Email notifications when modeller releases occur
- Enhanced member-count data and supporting MI

## OUTCOME

Members and investors can compare structures before decisions

Member Agents can scale scenario modelling with less administration

Managing Agents get clearer visibility across diversified participations
